

webcareSM

Our comprehensive monthly maintenance and security service turns your WordPress website into a sharp marketing tool for your business.

What's Included

- ✓ We keep your content current. One hour of website updates included
- ✓ Immediate scheduling (most requests are handled within 48hrs)
- ✓ Dedicated WebCareSM request and support access (lightning fast response times)
- ✓ Google analytics tracking
- ✓ 24/7 Uptime monitoring
- ✓ 24/7 Security monitoring
- ✓ Weekly malware testing, includes reacting to any suspicious activity in order to proactively protect you from a potential hack
- ✓ In the event of a hack (which is 99.9% unlikely under WebCareSM) we will clean up malware and restore your site
- ✓ Monthly "whole site" back-up (stored offline)
- ✓ 1 Free website restore per month (should you accidentally take your own site down, we have you covered)
- ✓ Maintain WordPress core files at most current version (includes testing for compatibility)
- ✓ Maintain all plugins at their current release version (includes testing for compatibility with all updates)

- ✓ **You're in expert hands - While we use top end software and technology to protect your website, nothing beats a human eye to catch any quirks or flaws in technology. We go into your site twice a week to perform your website maintenance.**

STARTING AT \$249 / mo
